

Section 6 Finale

Welcome to the section 6 finale! It has been an absolute pleasure, and I hope this section gave you insight into other things we need to do outside locking down our devices and accounts. Privacy and security is a lifestyle that you need to live and breathe everyday if you truly want to get the best out of it. *We covered who to trust, minimizing data access, anonymization and pseudonymisation, shopping safely, lifestyle changes, pre-configured hardware & software, the downsides to safety, and how to be an activist.*

Remember, spread the message, and set the example. If we all play a part, we can make a pretty big difference. Thanks for watching, and I'll see you in section 7 to wrap things up.
